40 CFR 264.1061, Subpart BB Program

Dear Mr. Brooks,

This letter is sent to notify you that pursuant to 40 CFR 264.1061(b), Clean Harbors Kansas, LLC is electing to comply with the 2% of all valves leaking standard as an alternative to monthly monitoring of valve equipment in hazardous waste light organic liquid service. An initial performance test of the applicable equipment was completed on 12/17/99 and 0% were found to exceed the 500 ppm emission standard. The tanks are currently out of service and will be retested to confirm acceptance per this standard when put back into service.

Should you have any questions, please contact me at 513-823-2284 or at bleys@cleanharbors.com.

Sincerely,

Stephen Bley, CHMM
